

AquaSphere® PRO

TREAT PONDS *Naturally*

ATTRIBUTES

- All natural, safe, and biodegradable
- Consumes excess nutrients
- Improves water clarity
- Easy to use, no mixing required
- 24/7 time release
- Great for irrigation ponds

WHEN TO USE

- Pond has a history of dead organic matter
- Pond has sludge buildup
- Pond is producing an odor
- Low water clarity
- Along with other Healthy Ponds® products

DIRECTIONS

1 | CALCULATE VOLUME

LENGTH (M)

X

WIDTH (M)

X

DEPTH (M)

TOTAL LITRES

2 | SELECT DOSAGE

AquaSphere®PRO is available in:

180,000 Litres	1,800,000 Litres
900,000 Litres	3,600,000 Litres

Always round up when treating

Example: a 1, 500,00 liter pond requires one 1,800,000 liter AquaSpherePRO per treatment.

Example: a 7,000,000 liter pond requires two 3,600,000 liter AquaSpherePRO per treatment.

One dose treats for 30 days

3 | TREAT

Begin treatment as soon as water temperature reaches 7°C

Repeat every 30 days

Evenly distribute spheres

Vary sphere placement monthly

Overtreatment is safe, and at times, recommended

Treat to the correct volume

3-STEPS TO A CLEAN, CLEAR AND HEALTHY POND. *Naturally*

STEP

1 DISPENSERS

Dispensers provide a 30-day time release of beneficial bacteria and enzymes that consume excess nutrients in the water to keep it clean and clear of green organic growth and to improve water quality and clarity. Dispensers are all natural, veterinarian approved, and safe for animals and people.

AquaSphere® PRO

- All natural and biodegradable
- Reduces the sludge layer on the pond bottom
- Reduces odor

STEP

2 SUPPLEMENTS

Supplements increase the beneficial bacteria count in the pond, combating excess nutrients and improving water clarity. Our supplements are all natural, safe, biodegradable, and easy to use.

Natural BLAST®

- Advances decomposition
- Treats the entire water column
- One water-soluble bag treats up to 450,000 litres

RUSH®

- Accelerates decomposition of floating organic matter
- Ideal for heavy matting and green slime on rocks

STEP

3 COLORANTS

Colorants reduce the ultraviolet rays that penetrate clear water, keeping the water temperature cooler and discouraging the growth of weeds and green organic matter.

- Use once water shows improvement from dispensers and supplements
- Keeps the pond cleaner
- Still allows for enjoyment of clean water

HOW TO USE

Months 1 and 2 use **STEP 1** and **STEP 2**

Months 3 and ongoing use **STEP 1** and **STEP 3**

Keep the supplements on hand in case of a large rainfall that washes excess nutrients into the pond or when a temperature spike is forecasted.
